

DualClean™ Softwall Strip Cleaner

Contec DualClean system makes complete, easy, and economical cleaning of vinyl strip curtains a reality – with just one person!

The DualClean Softwall Strip Cleaner is ideal for cleaning strip curtains and barriers in all environments from clean workspace enclosures to ISO Class 5 isolated cleanroom work cells.

The DualClean Softwall Strip Cleaner is a unique system that enables one operator to easily and quickly clean both sides of 4" - 12" plastic strip curtains in a single pass. The system consists of a fabric cover that is snugly installed over a stainless steel frame with two curved-surface arms. Each curtain strip to be cleaned is positioned between the two arms of the frame, with the arms contacting both sides of the curtain at once. With slight tension maintained on the curtain strip, the cleaner is moved down the length of the strip, easily and uniformly cleaning both sides of the entire length of the strip.

The DualClean system can be used with two different fabric covers to provide the best cleaning performance for a variety of curtain types and environments. The microfiber terrycloth cover removes and traps dust and other visible contaminants, while the Quiltec® knit polyester cover is ideally suited to more critical environments.

Using Contec's QuickConnect™ system, the DualClean frame may be attached to a wide variety of handles. The short telescoping fiberglass handle is recommended. The electropolished frame is resistant to most chemicals and disinfectants, and may be sterilized by common methods including gamma irradiation, ethylene oxide, or autoclave.

Applications

- Modular softwall enclosures and cleanrooms
- Soft curtain barriers in pharmaceutical and biomedical manufacturing
- Segregated clean work cells
- Controlled condition warehouses
- Compounding pharmacies
- Contamination sensitive laboratory processes
- General production areas where cleanliness is important
- Controlled Environments 2015 Readers' Choice Awards Winner for Best Cleanroom Consumables Product
- Patent pending

Contec® DualClean™

Softwall Strip Cleaner for all clean environments

For the first time, the new Contec DualClean system makes complete, easy, and economical cleaning of vinyl strip curtains a reality – with just one person!

The DualClean Softwall Strip Cleaner is ideal for cleaning strip curtains and barriers in all environments from clean workspace enclosures to ISO Class 5 isolated cleanroom work cells.

The DualClean Softwall Strip Cleaner is a unique system that enables one operator to easily and quickly clean both sides of 4" - 12" plastic strip curtains in a single pass. The system consists of a fabric cover that is snugly installed over a stainless steel frame with two curved-surface arms. Each curtain strip to be cleaned is positioned between the two arms of the frame, with the arms contacting both sides of the curtain at once. With slight tension maintained on the curtain strip, the cleaner is moved down the length of the strip, easily and uniformly cleaning both sides of the entire length of the strip.

The DualClean system can be used with two different fabric covers to provide the best cleaning performance for a variety of curtain types and environments. The microfiber cover removes and traps dust and other visible contaminants, while the Quiltec® knit polyester cover is ideally suited to more critical environments.
