

Contec *Providing simple solutions for complex problems*

Contec Filtered Alcohols

70% IPA or Denatured Ethanol blended with purified water

Contec alcohols are a blend of 70% v/v Isopropanol or denatured ethanol with 30% purified water. The alcohol blend is 0.2 micron filtered, filled and bagged in a Grade C (ISO Class 7) cleanroom.

Contec's ethanol is only denatured with IPA creating a very low residue product.

Supplied as either trigger sprays fitted with a protected system, which ensures sterility throughout use, or 5L capped containers for when larger volumes are required.

Feature

GMP manufactured under Grade A air flow in a Grade C cleanroom

No denaturants other than IPA

Trigger spray and “bag in bottle” protected system

Trigger spray can be set to jet or spray

Double bagged packed in linear tear packaging

Benefit

Ensures the alcohol, container and packaging are free from contamination and particulates

Completely residue free

Prevents bottle contents from becoming contaminated during use

No need to discard unused product during shelf life

Bottles can be completely emptied eliminating wastage

Large droplet size reduces the risk of inhalation and provides good surface coverage

Each bag is easy to open even when wearing gloves

Facilitates transfer disinfection into cleanroom

Specification

70% v/v IPA or denatured ethanol with 30% purified water

Ready to use with a 3 year shelf life

0.2 micron filtered

Double bagged in polyethylene linear tear bags

Tamper evident caps and triggers

Certificates of analysis provided with every batch.

Full supporting documentation including efficacy information (EN1276 and EN1650) is available on request.

Product Application

Ready to use so can be applied directly to the surface ensuring even coverage. Physically remove contaminants from the surface using an appropriate cleanroom wipe and a recommended wiping technique for optimum contamination control.
