

KDM SEATING IS AN IRISH MANUFACTURER OF HIGH QUALITY INDUSTRIAL CHAIRS FOR THE MODERN WORKING ENVIRONMENT. KDM SEATING HAS ITS HEADQUARTERS IN IRELAND BUT HAS MANUFACTURING SITES IN HUNGARY AND MEXICO WHERE ALL KDM CHAIRS ARE MANUFACTURED TO ADHERE TO STRICT SAFETY STANDARDS.

ADDITIONAL FEATURES & FITTINGS

- The following are a list of additional features available to all customers when choosing their customised KDM chair:

Arms

Arms can be added to all KDM chairs to provide increased comfort and support.

Footring

A 500mm chrome plated adjustable footring is available for each style of KDM chair.

Glides/Castors

Each KDM chair can be fitted with glides for added safety in the working environment, or castors to provide ease of relocation.

Castors Glides ESD Castors ESD Glides

Foot Ring

The 500mm chrome plated foot ring, which is attached to the spindle, is fully height adjustable.

5 Star Base

The 5 Star Die Cast Aluminium Base, which is an integral part of to all KDM Chairs adding to their stability and safety.

Back Rest

The Adjuster Knobs, located on the side of each KDM Chair, allows users to achieve the ideal back height to suit their working position.

Gas Spindle

The gas spindle is used to adjust the height of the chair. This allows the operator to select their ideal working height in line with ergonomic recommendations.

Back and Seat Tilt Mechanism

Each KDM chair is fitted with a unique multi adjustable tilt mechanism. This allows the operators to change the angle of the seat and back, allowing the operator to change their sitting position regularly, relieving pressure on their back and spine in line with ergonomic recommendations.
