## SATWIPES® with cellulose/polyester

- · Nonwoven hydroentangled polyester/cellulose blended wipes
- Dispensed from center-pull roll in a reusable canister
- · Presaturated wipe refills are available
- · Strong and durable
- Low levels of particles and extractable contaminants
- Each package is individually lot numbered
- Custom solvents and disinfectant capabilities; contact your Contec representative for details

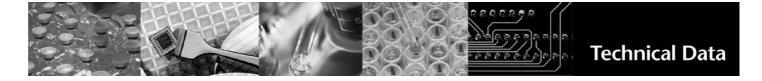

## Applications

- · Excellent wipe for less critical applications
- · Cleaning--wipe down, process tools and other equipment
- Compatible with ISO Class 6 environments
- · Wipe down prior to entry into cleanroom
- General purpose cleaning and surface preparation

# SATWipes® SAT-C1-7030 Wipe

Saturated nonwoven cellulose/polyester wipes in center-pull dispenser

## **Description**

The SATWipes C1 consists of a roll of (100) 6" x 9" saturated wipes that are dispensed through a convenient center-pull canister. The wipes consist of nonwoven cellulose/polyester fabric that is hydraulically entangled creating a soft, durable, and clean wipe that allows for consistent solvent application and use. The saturation of 70% alcohol and 30% deionized water provides a safe and mild cleaning solution. Reduce solvent handling and increase safety with these wipers. Refill rolls are available so the pop-up dispenser canister may be re-used, eliminating the need for solvent bottles.
