

Caster Bases

Stainless steel frames with casters

Description

The caster bases are available with two different caster configurations - standard and heavy-duty - to cover a wide range of applications and environments. Designed to fit Contec's autoclavable plastic buckets which are offered in 20 liter and 25 liter capacities in three colors (Red, Blue and Gray). The caster bases are fully autoclavable.

Features and Benefits

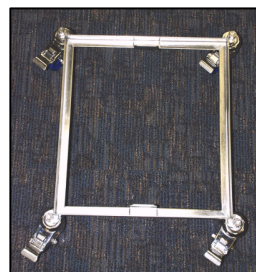

- Smooth, quiet operation
- Fully autoclavable (121° C for 30 minutes)
- Non-marking caster wheels
- Two caster options to fit a wide range of applications
- Ideal for double bucket protocols
- Easy to store flat or hanging
- Lightweight and easy to maneuver
- Resistant to most common chemicals and disinfectants
- Heavy-duty option has locking casters

Applicability

The information presented here is applicable to the part numbers shown below, as well as to any product containing the same materials and produced under the same conditions, regardless of product size or packaging configuration. Please contact a Contec sales representative for more details.

2769, 2770, 2771, 2772
