# Contec Sterile Low Endotoxin Alcohol

70% IPA or Denatured Ethanol blended with WFI or purified water

Contec alcohols are a blend of 70% v/v Isopropanol or denatured ethanol with 30% water for injection or purified water.

The alcohol blend is 0.2 micron filtered, filled and bagged in a Grade C (ISO Class 7) cleanroom. This clean manufacture coupled with water for injection or purified water means the alcohol blend is guaranteed to have an endotoxin level of less than 0.25EU / ml.

Contec's ethanol is only denatured with IPA creating a very low residue product. Contec sterile alcohol is provided sterile by gamma irradiated using a validated process at no less than 25 kGy.

Supplied as 0.5L or 1L trigger sprays fitted with a protected system, which ensures sterility throughout use, or 5L capped container for larger areas.

## Feature

Guaranteed endotoxin levels of <0.25EU/ml

GMP manufactured under Grade A laminar flow in a Grade C cleanroom

No denaturants other than IPA

Trigger spray and “bag in bottle” protected system

Trigger spray can be set to jet or spray

Double/triple bagged packed in linear tear packaging

Sterile via gamma irradiation

## Benefit

Suitable for use in product contact areas

Ensures the alcohol, container and packaging are free from contamination and particulates

Completely residue free

Prevents bottle contents from becoming contaminated during use

Bottles can be completely emptied eliminating wastage so no need to discard unused product during shelf life

Large droplet size reduces the risk of inhalation and provides good surface coverage

Each bag is easy to open even when wearing gloves

Facilitates transfer disinfection into high grade areas

Suitable for use in Grade A and B cleanrooms

### Trigger Spray Specification

70% IPA or denatured ethanol with 30% WFI

Ready to use with a 3 year shelf life

0.2 micron filtered

Guaranteed endotoxin level of < 0.25 EU/ml

Triple bagged in polyethylene linear tear bags

Tamper evident triggers

Sterile - irradiated at no less than 25 kGy

Thermoplastic polymers used which show good material compatibility with hydrogen peroxide and HPV

Certificates of analysis, sterility, irradiation and quantitative endotoxin levels, less than 0.25 EU/ml provided with every batch.

Full supporting documentation including efficacy information (EN1276 and EN1650) is available on request.

### Product Application

Ready to use so can be applied directly to the surface ensuring even coverage. Physically remove contaminants from the surface using an appropriate cleanroom wipe or mop and a recommended wiping technique for optimum contamination control.

### Ordering Information

Part No.	Description	Packaging
SBT0570IW	Contec <i>Sterile</i> 70% IPA in WFI 0.5L Trigger Spray	8 x 0.5L
SBT170IW	Contec <i>Sterile</i> 70% IPA in WFI 1L Trigger Spray	6 x 1L
SBC570I	Contec <i>Sterile</i> 70% IPA in purified water 5L Capped	2 x 5L
SBT0570DEW	Contec <i>Sterile</i> 70% Denatured Ethanol in WFI 0.5L Trigger Spray	8 x 0.5L
SBT170DEW	Contec <i>Sterile</i> 70% Denatured Ethanol in WFI 1L Trigger Spray	6 x 1L
SBC570DE	Contec <i>Sterile</i> 70% Denatured Ethanol in purified water 5L Capped	2 x 5L

Contec offers a range of innovative wipes and mopping systems designed for efficient and effective cleaning in controlled environments.
